SUMMARY

DVM with PhD in general anaesthesia in horses; accredited chiropractor, Trikombin practitioner, with special focus on integrational and holistic medicine as well biomechanic of horse and rider. I am also the author of many articles which raise awareness of the horse's needs for owners. I am a course organizer, with scientific interest- especially in myofascial therapy in horses. Still missing science, that can change horses life for better.

Polish- native language

English- C1/C2

Russian- B1

EXPERIENCE

Owner, worker, 02/2009 to Current

Oliwet Ltd — Poland

Equine holistic practice, where I mostly treat horses with chronic diseases like equine asthma syndrome, insulin resistance with harmonic frequencies, bioresonance (Trikombin system), herbs and homeopathy.

I also treat biomechanical disorders due to incorrectly fitted saddles, improper riding position etc. with chiropractic manual therapy, MFR, CST and kinesiotherapy. Retraining is an important aspect, including diagnostics such as thermography.

I organize courses and workshops for horse owners and riders about horse needs and biomechanics of both the horse and the rider.

Independent treating veterinarian, 01/2006 to 12/2009

Animal Clinic Dr. Piotr Szpotanski (DVM, FEI) — Lasiechniki, Poland

Work in a field practice with emergency cases like colics, accidents, laminitis, small surgical procedures, simple orthopaedic cases, internal cases, anaesthesia for field castrations. Started chiropractic treatments.

Scholarship holder, 07/2005 to 12/2005

Pferdeklinik - Universität Bern — Berne, Switzerland

Work under supervision of P.T. Prof Urs Schatzmann and P.T. prof Claudia Spadavecchia on my PhD thesis project, also intensive theoretical training and practical on general anaesthesia in horses.

Anaesthetic externship, 03/2005 to 04/2005

Pferdeklinik - Universität Bern — Berne, Switzerland

One month intensive theoretical and practical training in horse anaesthesia- history, drugs, procedures, preparation, methods, protocols, monitoring.

Visitor, 12/2004 to 12/2004

Tierklinik Wahlstedt- Tierärztliche Klinik für Pferde — Wahlstedt, Germany

Introduction to practical clinical anaesthesia in horses, assisting with anaesthetic procedures in a clinic.

Treating veterinarian, 11/2004 to 05/2005

Horse Clinic, Warsaw University of Life Sciences — Warsaw, Poland

Responsible for admission new patients to the hospital, treatment, under supervision of more experienced colleagues, keeping medical records. Started learning about anaesthesia for horses.

Extern, scholarship from Sheikh Mohammed bin Rashid Al Maktoum, 08/2002 to 09/2002

Dubai Equine Hospital — Dubai, U.A.E

Assisting with all clinical procedures- internal medicine and surgical, also field practice.

Extern, 09/2002 to 10/2002

Klinik für Pferde - TiHo Hannover — Hannover, Germany

Assisting with daily clinical routine: medical rounds, all treatments, also emergency surgeries.

Student assistant, 09/2001 to 10/2001

Warsaw Racetrack Hospital "Sluzewiec" — Warsaw, Poland

·Helping with simple procedures like bandaging, injections, assisting operations.

EDUCATION AND TRAINING

“Primary regulation- 5 elements testing and internal environment with harmonic frequency system”- 25-26.01.2020, Mannayan Poznań

“Procedure of the harmonical Frequency system”- 02-03.03.2019 Mannayan, Munich

“Basic Workshop- Introduction into the harmonic frequency system”- 15-16.12.2018 Mannayan Poznań
